## **WARRANT FOR TOWN MEETING**

### **STATE OF NEW HAMPSHIRE**

---

To the Inhabitants of the Town of Rollinsford in the County of Strafford, in said State, qualified to vote in town affairs:

You are hereby notified to meet at Town Hall in said Town on Tuesday, the fourteenth day of March next, at ten o'clock in the forenoon, to act upon the following subjects:

- ART. 1. To bring in your ballots for Town Clerk, Town Treasurer, one Selectman for a term of three years, one Road Agent, and Chief of Fire Department.
- ART. 2. To choose all other necessary Town Officers for the ensuing year.
- ART. 3. To raise such sum of money as may be necessary to defray town charges for the ensuing year and make appropriations for the same.
- ART. 4. To see what percentage, if any, the Town will vote to discount all taxes, excepting poll taxes, paid on or before September first next.
- ART. 5. To see if the voters of the Town of Rollinsford will authorize the Selectmen to borrow money in anticipation of taxes.
- ART. 6. To see if the Town will vote to raise and appropriate the sum of Five Hundred Dollars

(\$500.00) for the purpose of extending the water-main on Broadway Extension, so called, this to be in addition to the \$950.00 raised last year and as yet unexpended.

ART. 7. To transact any further business that may legally come before said meeting.

Appropriations will begin at eleven (11) o'clock sharp.

Given under our hands and seal this twenty-seventh day of February, in the year of our Lord, nineteen hundred and thirty-nine.

WILLIAM A. HILL  
EDWARD J. HUDON

} Selectmen  
of  
} Rollinsford

## REPORT OF CHIEF ENGINEER AND FOREST FIRE WARDEN

---

### CITIZENS OF ROLLINSFORD:

The year 1938 has been a busy year for your fire department. We have been visited with one serious fire and several others not so serious. Thanks to the taxpayers for equipping their fire fighting force with the necessary apparatus and supplies this serious fire of August 1st was nipped before it could get out of bounds, and the other minor fires were checked before they could become serious.

Our one bad fire originated in the grocery store of E. J. Theberge and Son in the Kenniston Block on Front Street. The fire was confined to its place of origin after cleaning out the entire grocery stock and fixtures of the store and sending the proprietor to the hospital for several weeks badly burned when he attempted to extinguish the blaze. This fire was caused by a small gasoline hot dog heater exploding. Just one example why gasoline should not be tolerated in a building. The quick response of the firemen with their necessary apparatus and quipment was the one thing that saved a conflagration and perhaps some lives. This is one instance wherein your fire equipment saved our town much more in dollars, cents and perhaps lives than would otherwise have been the case had we not been fortified to cope with the fire when the call demands. Our small fires were quite numerous but were quickly extinguished before much loss could result.

It is quite properly suggested that the cut in firemen's salaries be now restored and sufficient funds be appropriated to enlarge the roster of the fire department by at least two men. I, as chief, favor that suggestion and ask the town to

accept it and appropriate, for firemen's salaries, clerk hire, and aid association dues, the amount of \$460.00 in 1939. By so doing you will not only maintain the efficiency of fire fighting in Rollinsford but have a more contented and willing department roster, surely the men earn all you can afford to pay them, but it is the love of the game that keeps them interested in fire fighting and not what they receive in the way of salary. Make this appropriation, as asked above, and show them that their efforts and work is appreciated.

Your fire trucks are in good condition and their equipment is kept up to the point of efficiency. As usual we are well within our budget and have a goodly sum unexpended.

Our grass and brush fires have been kept down to the point where the loss for 1938 from such fires was very small. We must all exercise "special" individual effort next Spring and Fall relative to grass, brush and woods fires. Due to the heavy damage left in the wake of the hurricane of September 1938, especially in brush and woodlands, there are apt to be many terrible brush and woods fires from now on and I caution everyone to be on their guard against these types of fires for the State Laws governing same will be strictly enforced.

Fire permits, in the future, will be issued with due caution by the fire warden acting under instructions from the State Forestry Department. Everybody is warned not to burn in the open without the required permit for the State Laws governing such burning are going to be carefully watched by fire wardens and State Fire Officials. Great caution must be exercised on account of the great accumulation of slash and brush along the roadsides and right of ways. Everybody wants to help fight fire and here will be one chance wherein all can be of real service by exercising due caution, "especially" in the fields, brush and woods. As before stated, fire permits will be issued by the fire warden with great caution and understanding for 1939, so if you have any doubt regarding your obligations under the fire permit law do not appeal to the warden for a permit until you satisfy yourself in regard to that which you may

desire to burn, because you may be refused the permit unless you can satisfy the warden. He is going to be strict in the issuance of fire permits, by orders of the State Forester. By being very cautious and working together we can eliminate many fire hazards, thereby saving much valuable property for ourselves, our neighbors and our community. You will help and cooperate won't you?

It is very encouraging to note, and we appreciate the fact, that the Community Garden Club of Salmon Falls is cooperating to eliminate fire hazards by refusing to consider open lighted candles and other open lighted decorative displays when judging and awarding prizes in neighborhood competition around Christmas and the holiday season. Please keep up the good work which is so beneficial to all our home owners and residents.

Do not forget your stove funnels and chimney flues, keep them clean. Uncut hay fields, while not so numerous as in some years past, are still quite a hazard in our town and should be cut in season if only for the purpose of disposing of the great hazard they create the following Fall and Spring. Won't you cut your hay fields? Remember the law relating to the throwing of lighted cigarettes, cigars and matches along the highways. The disobeying of the above law by people who do not think, or care, is going to be closely watched on account of the many serious fires that may be kindled the coming year. Take heed therefore and watch out.

Next year's budget requirements should be the same as last, or \$1,100.00, which includes truck insurance of approximately \$180.00.

The apparatus and all equipment for the Rollinsford Fire Department is yours. What it contains you pay for and derive the benefits therefrom, what it lacks, due to insufficient funds to maintain, you also pay for in the way of loss from fire through neglect of maintenance. Which do you prefer? It is your choice and yours alone. Choose carefully.

If we have accomplished results with your fire department in the past it was made possible only through your

cooperation by supplying the necessary utilities, and if you desire the same or better accomplishments for the future you must keep up the maintenance and be ready to support same financially.

Public support and cooperation in the past is acknowledged and it must continue if our town is to meet the fire fighting problems of the future. Many hazards must be eliminated and fire prevention practiced. Now is the time to start. Let us work together.

With a true understanding of the townspeople's support we extend our appreciation and thanks hoping for future encouragement by cooperation.

RAYMOND C. CHASE,

*Chief Engineer, Forest Fire Warden.*

Respectfully submitted, Jan. 31, 1939.

Caution—We Solicit Your Cooperation for Service*

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

TO THE SCHOOL BOARD AND CITIZENS OF ROLLINSFORD:

I have the honor to present my eleventh annual report.

There have been no changes in our teaching force. Miss Bleakney resigned as School Nurse in December of this year. Therefore, no formal report is made of her work. I am inserting excerpts from her last annual report. Miss Bleakney was regretfully released. The statistics for the most part are for the year 1937-38; the enrollment only being given in 1938-1939. You will note that the enrollment has increased, especially in the lower grades.

The testing program being followed this year is similar to that of the year preceding. The Detroit First Grade Intelligence tests were given to those entering grade one. The last week in January the Metropolitan Achievement Tests were given to grades 4, 5, 6, 7, and 8 and a reading test to grade 3. Results have not yet been checked. The Standards were well met last year. In June the Standard Graduation tests will be given to help determine the fitness of our graduates to do high school work.

In June 1938, 12 pupils graduated from the 8th grade and 9 entered high school from Rollinsford public schools.

The William Martel Post of the American Legion awarded scholarship medals to Patricia Nolette and Stephen Roberts.

This Fall, Miss Bleakney and the teachers conceived the idea of furnishing at cost a hot dish each noon lunch period. Miss Margaret Thomas has been hired by the teachers to supervise the service of this project to those pupils who bring their lunch. The plan seems to be working very well.

About three gallons of some kind of soap is needed each day. This is furnished by Mrs. William Foxlow.

The school has been presented cups and other dishes by the Odd Fellows. No dishes have to be brought from home. The same organizations have loaned the school an excellent Victrola and records. Those responsible for these gifts receive the thanks of all.

Miss Thomas continues to carry on an Adult School under the auspices of the WPA and most of these pupils are preparing for Naturalization. This is a commendable undertaking and costs the District very little, since the basement is always warm.

No money was made available by the District for purchasing tools for the boys. The school raised a little and I never spent a more pleasant hour than I did when I helped the boys select their tools from a catalog or when later I helped them unpack the tools. They have built for themselves a strong, satisfactory work bench and spend an hour each week in what is for them "creative work". At the same time the girls are bringing materials from home and being taught how to prepare and serve afternoon teas. Also how to mend clothes and sew on buttons.

---

## WHY SCHOOLS COST MORE

The public schools belong to the people and they have a right to know what the schools are trying to do, how well the job is being done and what it costs. This last, because of the unusual economic conditions in recent years, has become an accute issue. There are always some people who think that school expenditures are excessive. This is written therefore to help them understand the reasons.

\* The first year when national statistics were available was in 1870. In that year the cost of the public schools in this country was, in round numbers, 63 million dollars. In 1930 it was nearly 2,317 million dollars, an increase of 2,253

million dollars or almost 37 times as much. With the exception of four years from 1876 to 1880 and the same length of time from 1930 to 1934 the increase has been steady. Between 1930 and 1934 expenditures fell off 26 per cent. The trend is now again upward. About half the ground lost between 1930-1934 has now been recovered. It is expected that for some years to come that the costs will continue upward. What are the important factors that account for this trend.

\* F. W. Hubbard—Associate Director N. E. A. in Secondary Education.

1. The purchasing power of the school dollar has declined just as any individual's dollar has declined. Its ability to purchase goods and services has constantly changed and is changing. It is necessary in some years to spend a larger sum than in other years for the goods and services needed for the operation of the schools. A study made by the author already quoted shows that about 55 per cent of the increase between 1914 and 1930 was caused by the rising prices of goods and services, or to put it the other way, due to the decrease of the school dollar in purchasing power.

2. The number of children to be educated increased steadily between 1914 and 1930. Terms of schools were consistently lengthened, attendance laws in all states were strengthened and better still, enforced. This period also witnessed the rapid growth of the public high school. New high schools established during this period averaged better than one a day. † In 1890 less than 4% of the children of high school age were inschool. Now over 60% are in school.

† Report of President's Advisory Committee on Education.

3. Higher standards of education rapidly rose as we moved forward into the post war period of science and

power. Statistics cannot measure these higher standards but they cannot be introduced or maintained without costing money.

§ "Public education is one of the largest of all public businesses. The value of the property of the public schools has reached \$6,675,000,000."

§ President's Advisory Committee on Education.

Below are some interesting Per Pupil Costs for the year 1937-38 with comparisons with the same figures for the State.

---

#### COST PER PUPIL OF AVERAGE MEMBERSHIP

	<i>Rollinsford</i>	<i>State</i>
Administration .....	\$ 5.23	\$ 5.60
Teachers' salaries .....	37.18	52.77
Books .....	*1.32	1.53
